ASSEMBLY INSTRUCTIONS86in 120 Light LED Twinkle Acrylic Eiffel Tower

USE AND CARE GUIDE

PLANNING ASSEMBLY

Carefully remove all the parts from the box and place them on a flat surface. Please note that many of the parts are connected by the lighting string that runs throughout the item. Remove the parts with care not to damage the lighting string or parts. Read the entire manual prior to assembly and identify all the parts included in the package against the parts list. If any parts are missing or damaged do not attempt assembly. Contact our customer service center or return the item to place of purchase with purchase receipt. Assembly of this product may require more than one person.

Pre-Operation

CAUTION: Grasp the plug to insert or remove from the power source. Do not unplug by pulling on cord.

CAUTION: The lighting string on this product is rated at 33.6Watts (0.28Amps). Do not overload. Do not connect to another lighting string, decorative outfit or other electrical products. Before you use or re-use this product, inspect it carefully. Discard or return to place of purchase with purchase receipt if the product has cuts, damage, frayed wire insulation on cords, cracks in the socket enclosures, loose connections or exposed copper wire.

Care and Cleaning

- a. Carefully remove the product from wherever it is placed. This helps to avoid any undue strain or stress on the product connections and wires. If the product is placed somewhere other than the ground it should be well secured and stable.
- b. Wipe the unit with a damp cloth and allow the unit to dry before storing.
- c. Store the product neatly in a cool, dry location protected from sunlight.

Guarantee

What is Covered

The product is intended for residential seasonal use for 90 days per year. This product is covered by a 90 days limited guarantee due to defects in material and workmanship. Return the product with purchase receipts to the location of purchase for refund within 90 days of purchase.

What is Not Covered

This warranty does not cover commercial use, normal wear and tear, products not used in accordance with directions provided on or with the product, burn out of bulbs or LEDS, batteries, products that have been subjected to unauthorized repair and/or modification and damage caused by shipping and improper handling, alterations, misuse or accidents. Questions, problems, missing parts? Before returning to the store, call Home Accents Holiday Customer Service 8 a.m.-6 p.m., EST, Monday-Friday

ASSEMBLY

1 Assembling the Base Section

Align the four parts of the Base Section (F) and insert the connecting rods on each part into the matching holes with the adjacent part and fasten together with Plastic Tie (H).

3. Assembling the Third Section to the Second Section

Insert the metal connecting rods on the bottom of the Third Section (D) into the matching holes on the top of the Second Section (E) and fasten together at the connecting loops with Plastic Tie (H).

5. Assembling the Fifth Section to the Fourth Section and the Spire

Insert the metal connecting rods on the bottom of the Fifth Section (B) into the matching holes on the top of the Fourth Section (C) and fasten together at the connecting loops with Plastic Tie (H). Insert the metal connecting rods on the Spire (A) into the matching holes on the top of the Fifth Section (B) and fasten together at the connecting loops with Plastic Tie (H).

2 Assembling the Second Section to the Base Section

Align the two parts of the Second Section (E) and insert the connecting rods on both parts into the matching holes with the adjacent part and fasten together with Plastic Tie (H). Stand the Base Section (F) in an upright position then insert the metal connecting rods on the bottom of the Second Section (E) into the matching holes on the top of the Base Section (F) and fasten together at the connecting loops with Plastic Tie (H).

4. Assembling the Fourth Section to the Third Section

Insert the metal connecting rods of the bottom of the Fourth Section (C) into the matching holes on the top of the Third Section (D) and fasten together at the connecting loops with Plastic Tie (H).

6 Assembling the Ground Stakes

Secure the Eiffel Tower to the ground using the Ground Stakes (G).
