

Heritage Arbors

Craftsmanship Makes the Difference

These unique arbor designs are made from the latest maintenance-free materials to bring you years of outdoor enjoyment. Each arbor is hand-crafted with the exquisite detail and style you expect in upscale products.

High-Tech Maintenance-Free Materials

- Beams are constructed from lightweight durable fiberglass and hand-laid for a seamless beam end-to-end; eliminating "stick on" plastic end caps, as found on most vinyl systems.
- Cast stone column bases are made from glass fiber reinforced concrete and have the look, feel and heft of custom stonework.

Old World Hand-Made Craftsmanship

- Stylish support beams are easy to assemble and available in a single or double beam option.
- Old world craftsmanship is rich in material and labor, making the Heritage Arbor both elegant and long-lasting.

Built to Last

- Weatherproof, insect proof, and maintenance-free.
- Galvanized steel is used to reinforce beams and cast stone column bases for added strength and durability.

Cast Stone Base Styles

- Limestone
- Stacked Stone - Gray
- Stacked Stone - Beige
- Fieldstone
- DYO - Design Your Own

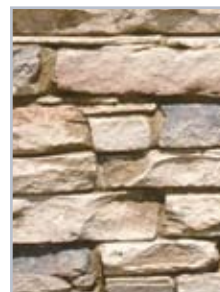

Note: Colors may vary from actual product, as do natural stone colors.
