

CAPSPRAY™ 95

As business grows, so does the size of the projects. When more power is needed, professionals rely on the CAPSPRAY 95, a powerful, versatile 4-stage turbine unit designed to apply a wide range of coatings, from ultra-thin stains to heavy latex paint. Recommended for medium-size residential and commercial projects.

- Comes with #3 Proset

The next step in power and precision when business grows along with the size of the projects.

AUTOMOTIVE QUALITY AIR FILTER

CAPSPRAY 95-115 units have dual filtration; separate filters for the motor cooling air and gun atomizing air. Pre-filters are installed on both sides in front of the main filter to extend life and simplify cleaning and replacement.

CAPSPRAY™ 105

Larger projects involving heavier-bodied coatings require the 5-stage power and long-term dependability of the CAPSPRAY 105, a solid – but remarkably lightweight – workhorse HVLP capable of atomizing thick latex or solvent-based paints, enamels or varnishes with little or no thinning. This is the sprayer professionals use when projects expand or workshops fill with cabinets and furniture.

- Comes with #3 and #4 Prosets

Recommended for larger residential and commercial projects where specifications call for a variety of light and heavy-bodied coatings.

CAPSPRAY 95

Air Pressure	9.5 PSI
Turbine	4-Stage Tangential
Hose Length	30'
Gun Included	Maxum II
Proset	#3
Weight	21.0 lbs
P/N	0524032

CAPSPRAY 105

Air Pressure	10.5 PSI
Turbine	5-Stage Tangential
Hose Length	30' + 5' Whip
Gun Included	Maxum Elite
Proset	#3
Weight	22.0 lbs
P/N	0524033
