curv8
by BOLEFLOOR

Curv8 adopts Bolefloor's advanced organic flooring technology. We preserved 8 universal shapes from the infinite choices of Nature, 8 shapes which fit perfectly together, creating the most natural floor possible. Yours.

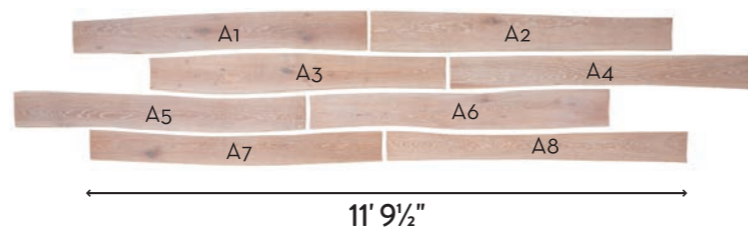

curv8 boards are never cut from straight planks

The modular build makes Curv8 an easily manageable organic flooring. Our approved partners are available to install the floor whether it be in a hotel, restaurant, office or private residence.

Technical: Curv8 Oak is 0.46" multilayer product with 0.12" noble timber wear layer. The base layer is made from Baltic birch plywood providing better dimensional stability in seasonally fluctuating ambient moisture conditions.
