

PERSONAL ULTIMATE BLENDER

The Chefman Ultimate blender is an individual-sized blender and sport bottle in one that is designed to fit your active, fast-paced lifestyle. With quick and convenient One Touch blending, you can create your favorite smoothies, protein shakes, and more to enjoy at home, on a run, or at the office.

The Chefman Ultimate blender is a powerful way to start your day with its 250-watt motor that will pulverize frozen fruit to blend the smoothie of your choice. By blending directly into the sport bottle, you'll have less mess and less to clean up. The stylish 20-ounce BPA-free plastic sport bottle is dishwasher safe and fits in most car cup holders. Storage is simple, as the blender base is small enough to keep on your counter every day.

Fill, Blend, Go, and Reuse

The easy to use Ultimate blender allows you to personalize the contents of your blended beverage and control the ingredients. Simply fill the sport bottle with ingredients from your favorite recipe, blend, and go about your day. Once you have enjoyed your smoothie or protein shake, you can reuse your sport bottle throughout the day to stay hydrated with water and other beverages.
