

90 Day Warranty

All products come with a 90 day warranty that covers the functionality of our products. This warranty does not cover finishes, cosmetic discoloration, knot holes or wood imperfections, damage, improper installation or normal wear. We will replace any part that fails to function properly with the return of the failed product.

All doors that are finished and/or assembled by Dogberry Collections come with a 60-day warranty against warping. Warping is defined as doors that are out of alignment of more than 1/4".

Unfinished doors do not have a warranty against warping because of changes in climate that can allow the door to absorb moisture during transit (causing the door to warp). Incorrect finishing of a door can also cause warping which is why we highly encourage our customers to allow us to finish and ship their door finished.
