

Recommended Maintenance

For Grilles, Registers and Diffusers

12/28/2017

Model: _____ Size: _____ Tag: _____

Project Name: _____

Project Location: _____

Engineer: _____ Contractor: _____

Distributor: _____ Representative: _____

Safety:

Prior to performing any maintenance, turn equipment/system off.

Cleaning:

Units with or without dampers maybe washed with warm soapy water, rinsed and then dried thoroughly with a soft cloth.

Maintenance:

After every cleaning and/or periodically the moving parts of the damper may be lightly lubricated with a clear lubricant like petroleum jelly if necessary.
