

Technofloor Acoustic Acoustic Underlay

- Easy installation
- Reduces impact & overhead noise
- High performance; will not flatten over time
- Naturally mold resistant
- High quality vapor barrier promotes airflow
- Certified for radiant or heated flooring
- Made from 100% recycled material
- Certified green label
- Lifetime warranty

Adaptable to any type of floor covering, this underlay's superior soundproofing technology absorbs sound and impact noises, even surpassing the standards required for apartments and condominiums.

Made of rubber particles, TECHNOFLOOR ACOUSTIC offers protection against moisture in concrete floors, and increases the thermal insulation to ensure comfort while providing energy and money savings.

Suitable for wood floors, vinyl planks as well as carpets; simply unroll as is on concrete, plywood or any other flooring and follow the instructions from the provided video. *Made in Canada.*
