Installation

1 ROUTING THE CABLES

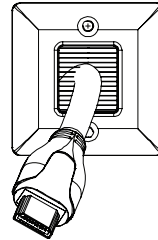

- After using a 1-3/4 in. hole saw (not included) to drill a hole for your install location, route your cables through the brush opening in the Hole Saw Brush Plate.

TIP: Do not over-tighten screws with power tool.

2 INSTALLING THE PLATE

- Secure the Hole Saw Brush Plate to the wall using a Phillips head screwdriver to tighten the attached screws with wings.

Safety Information

Please read all instructions and safety information before use.
Retain this manual for future reference.

CAUTION: When using tools always follow the manufacturer's safety guidelines.
