

TECHNICAL DATA SHEET
Latex•ite® DRIVEWAY CLEANER/DEGREASER
 Manufacturer Product#: 82757
 UPC#: 090932827578

PHYSICAL PROPERTIES & PERFORMANCE

Appearance: Blue Liquid	Maximum VOC: 0 g/L
Application Temperature: 55° F and rising.	Specific Gravity: 1.001
Viscosity: 200-500 cps	Weight Per Gallon: N/A
Color: Blue	Consistency: Liquid
Boiling Point: >212° F	Container Size & Weight: 1 quart, Approximately 2 lbs.
Freeze ability: Do not allow to freeze.	

FEATURES

Latex•ite® DRIVEWAY CLEANER/DEGREASER is the best solution for getting rid of oil, mildew, grease, pine sap and large dirt stains on your driveway. It is a heavy duty detergent that will penetrate the surface allowing for a stronger bond to the new sealer.

- **A cleaner driveway will help your sealer last longer.**
- **Deep cleaning formula – ready to use.**
- **Has rinse mode – great for car washing!**
- **No VOC’s / Easy soap & water clean-up**

SURFACE PREPARATION

Sweep and/or blow surface clean removing excess dirt and debris.

APPLICATION

When ready to use, shake bottle, attach hose and you are ready to go! Start at far end of driveway – Turn to ON position and soak troubled areas. You may need to scrub if stain is not rinsing away. After driveway has been power washed change to RINSE setting and rinse driveway. Allow to dry prior to sealing over.

PRECAUTIONS

Wear gloves, eye protection, and cover exposed skin areas. Apply when there is no wind. Temperature should be a minimum of 50 ° F and rising. Do not spray plants, animals, or people. keep children and pets away from area and runoff while cleaning. Store and transport container in a safe place, make sure sprayer is tight and secure at all times, and protect from spills inside a bag or box.

CLEAN UP & STORAGE

Do not allow to freeze. Product is non-hazardous.

!!!CAUTION!!!

Emergency & First Aid Procedures:

Eyes: Immediately flush with clean water for 15 minutes while holding eyelids open; consult a physician.

Inhalation: If overcome by mist or vapor, remove from exposure immediately; call a physician. If breathing is stopped or irregular, start resuscitation, administer oxygen.

Skin: Remove any contaminated clothing and wash skin with soap and warm water. Vegetable or mineral oil can remove dry material.

Ingestion: DO NOT INDUCE VOMITING even though vomiting may occur. If vomiting occurs, keep head below hips to prevent aspiration of liquid into the lungs. Get immediate medical attention.
