Before Initial Use
Before you can use the device, you must:

- unpack the items supplied,
- clean the device.

Unpacking

⚠️ CAUTION!

☐ Keep children and animals away from the packaging material. There is a danger of suffocation!
Unpack all parts and check the items supplied for completeness (see the "Items Supplied and Device Overview" chapter) and transport damage. If you find any damage to the components, do not use them (!), but contact the customer service department.

**Inserting/Removing the insert holder**

1. Hold the insert holder tilted slightly to the right and insert it into the motor unit.

2. Rotate the insert holder a quarter turn to the left until it engages.

3. To release the insert holder from the drive shaft, rotate the insert holder a quarter turn to the right and remove it from the motor unit.

**Inserting/Removing the insert**

1. Select a suitable insert (see also the "Items Supplied and Device Overview" chapter, "Accessories" section).

2. Insert the insert into the holder. Make sure that the insert is seated correctly on the drive shaft.

3. Place the quarter-turn fastener on the drive shaft. Make sure that the fastener is seated correctly on the drive shaft.

4. Turn the fastener to the left, to secure the insert.

5. In order to remove the insert, turn the fastener to the right to release the fastener.

6. Remove the quarter-turn fastener.

7. Remove the insert.
