

Quick Start Guide

Cleaning can be overwhelming, so we kept things simple. In just a few easy steps, Bob will be ready to work!

Here's What You'll Need:

All parts are included in Bob's box.

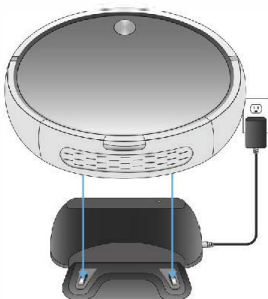

Charging Station

Charging Adapter

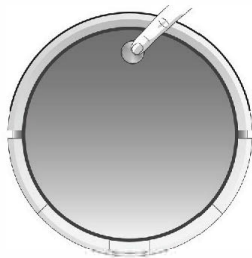

Step 1: Charge Bob

Place Bob on his charging station and allow him to charge. The metal plates on Bob's underside should sit on top of the nodes on his station.

Step 2: Let Bob Sweep!

Press the cover button.

When Charging:

Bob chirps once and slowly blinks his cover button.

When Fully Charged:

The cover button stops blinking and remains solid.

Bob Works on the 2-Click System:

1 click to clean and 2 clicks to charge. It's as easy as 1-2-Sweep!
