

Tommy Docks carries TechStars great dock floats and accessories

TechStar Molded Bumper Floats

Part # - Bf-2 dimensions are 54" x 48" x 16"

TechStar BF-2 Bumper floats allow for the maximum stability on narrow 4-foot wide floating dock sections. 4-Foot lengths allow you to build a 4-Foot wide dock in lengths of 8-feet, 12-feet, 16-feet etc.

These Heavy-Duty Bumpers outer shell is molded from marine grade polyethylene and filled with expanded styrene foam and hermetically sealed.

The advanced design can be adapted for most any dock style.

These Molded Bumper Floats give protection to your dock and watercraft keeping everything looking great for years.

Dock Bumper floats create a strong protective barrier for your dock. Our bumpers are non-marking and give a great finished look to your dock. Resistant to contaminants and wildlife as well.
