Care and Cleaning

- Do not allow water to build up in the frames. This will cause corrosion and possible freezing damage in cold climates.
- Use a mild soap and water for normal cleaning. Do not use janitorial or alcohol based cleaners. Some cleaners may be marked as natural, but some ingredients may cause discoloration or have an adverse reaction to your finish.
- Rinse with clean water and dry with a soft, absorbent cloth towel.
- Treat frames with a liquid wax for maximum protection against UV rays and/or salty, damp air.
