

Large Hammock Stand

Congratulations on your purchase of the Large Hammock Stand. We believe that you will find it a product of unsurpassed quality and durability.

If you have any questions regarding our products, call our toll-free consumer customer service line: **800.643.3522**
Visit our web page: www.thehammocksource.com

Hardware Included:

- 3 - Poles
 - 2 - Foot Brackets*
 - 2 - "Z" Hooks
 - 2 - Hooks with chain also will be included with some models
 - * Depending on your model, the foot bracket and corresponding foot caps will be either round or square.
- 4 - Protective Foot End Caps*
 - 2 - Protective Pole End Caps

ASSEMBLY:

1. Place the protective foot end caps on the foot brackets.
2. Arrange the foot brackets flat on the ground. *For the stand with square foot brackets, ensure the shorter side of the elbow section on the ground faces the other foot bracket. In this direction, the foot brackets should sit flat on the ground rather than on an edge.* See Fig. 1.
3. Place one pole between the two foot brackets and insert the foot brackets. Push down on the spring pins while pushing the poles into place until the spring pins on the foot brackets exit through the holes and lock into place. See Fig. 1.
4. Arrange the remaining two poles at each end. Assemble by pushing down on the spring pins as in step 3.
5. Place the pole end caps on the end poles.
6. Insert the "Z" hooks at each end. This is done by inserting the hook perpendicular to the pole and turning it to align with the pole.
7. Using the chain provided with your hammock or stand, hang your hammock. Attach chain tightly on the "Z" hooks and sit into the hammock slowly. Your rope hammock will stretch and you may experience "bottoming-out" initially. **Take extreme care when sitting in the hammock for the first time.** Once this initial stretching occurs, you will want to tighten the hammock chains. Repeat this until a comfortable height is reached; **always use care when sitting in an untightened hammock.**

WARRANTY INFORMATION:

Products of The HammockSource are guaranteed to be free of defects in workmanship and materials for up to one year after the purchase date. Prolonged exposure to weather conditions including snow, rain, and humidity are not covered under the warranty nor is damage caused by normal wear, mildew, or improper care including storage, maintenance, and installation. If an item is found to be defective within one year of its purchase, it will be replaced without charge upon the return of the unit accompanied by a sales receipt. If you choose to return an item, you must contact our customer service department at 800.643.3522 to obtain a Return Authorization Number that will allow us to track your unit once it arrives at our warehouse; thereby creating a faster response to your concern.

CARE & MAINTENANCE:

Inspect the hammock and stand unit prior to relaxing as well as periodically to ensure that:

- All ropes are of solid construction with no frays in the clew knot.
- The hanging chain is not twisted as this will greatly reduce the integrity of the chain.

CAUTION! CAUTION! CAUTION!

WARNING: DO NOT EXCEED LOAD LIMIT OF 600 LBS. -
For Models with round foot brackets.
WARNING: DO NOT EXCEED LOAD LIMIT OF 450 LBS. -
For Models with square foot brackets.

Stands should be examined periodically to ensure that:

- Each welded joint is fully intact.
- There is no excessive rust.
- There are no missing caps (rust protection).

• DO NOT ALLOW CHILDREN TO USE THE HAMMOCK WITHOUT DIRECT ADULT SUPERVISION. DO NOT PLACE INFANTS IN THE HAMMOCK.

- Do not drag or pull your hammock stand when moving or adjusting.
- ALWAYS lift from both ends.
- If a wheel kit, purchased separately, is installed, you may lift and move from the opposite end from the wheels.
- NEVER drag or pull your hammock stand even when wheels are installed.
- After any moving or adjusting of your hammock stand, **ALWAYS inspect to make sure the spring pins are properly inserted.** Failure to do so may result in the hammock stand collapsing upon use.
