ENCORE®

A Z A L E A

— More Blooms, More Often —

In the early 1980s, inventor Buddy Lee began breeding what would become the Encore® Azalea. Since then, Encore Azaleas have been extensively tested by nurseries, universities, arboretums and gardens across the country. Encores have proven to be low maintenance solutions for multi-season landscape color, and over the years, many varieties have been proven to be cold hardy through USDA Zone 6.

23 Varieties Proven Cold Hardy to Zone 6B

In addition to the varieties cold hardy to 6A (listed at left), 9 additional varieties consistently exhibited solid cold hardiness in zone 6B:

- AUTUMN BRAVO™
- AUTUMN CARNIVAL™
- AUTUMN DEBUTANTE™
- AUTUMN EMBERS™
- AUTUMN EMPRESS™
- AUTUMN MONARCH™
- AUTUMN PRINCESS™
- AUTUMN ROUGE™
- AUTUMN SWEETHEART™
