## 3-TIER SHELF

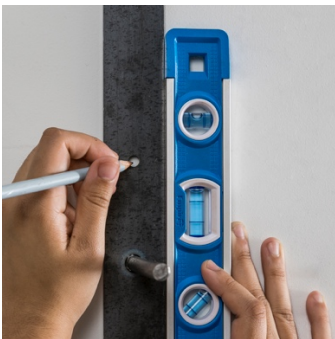

### HANGING INSTRUCTIONS

#### STEP 1

---

At desired height using a level to make sure the bracket is level, place the back side of the the 3-Tier bracket to the wall and mark each of the 4 holes for each bracket. At each mark, either on a stud or using the supplied drywall anchor and the 2" #6 phillip's head screws, mount the brackets to the wall. Tighten each screw until secure (do not over tighten).

## STEP 2

---

Take one of the 2x6 shelves and using the pre-drilled holes and slide the shelf onto the pegs.
