Personalize your project with a photo!

- 
1 Once photo is printed, apply Photo Transfer Medium to printed side of paper.
- 
2 Place paper on surface printed side down and smooth out air bubbles. Wait 12 hours to dry.
- 
3 Remove paper with a damp rag. Repeat steps as necessary.
- 
4 For added protection, apply Photo Transfer Medium as a top coat.

Photo Transfer Medium

• TRUSTED QUALITY SINCE 1921 •
RUST-OLEUM®

Photo Transfer Medium

TRANSFER IMAGES TO MANY SURFACES

Matte

Easy to use
Water based

Works on wood, metal,
glass & More!

NET WT. 8 OZ. (236mL)

One - 8 oz Bottle Included

You Will Need:

- A printout of your favorite photo
- Brush
- Rag

Additional Tips & Tricks for Application:

- Photos must be printed using a laser printer on standard printer paper
- For images with a lot of white space you will see your project's surface instead of a white color, as only ink will transfer
- When placing image onto your surface, press down firmly when smoothing out air bubbles to ensure the entire photo lays flat against your project's surface. A squeegee can be used as well.
- When using on wood, light woods will show bolder colors while darker stained woods will give a vintage look with muted color tones.
- Soap and water clean up when wet

KEEP OUT OF THE REACH OF CHILDREN. CONFORMS TO ASTM D-4236
