

NEW Xtreme Ties

Xtreme Ties, another innovation from Gardner Bender, can save the day in harsh environment applications. Cable tie easy, but for extreme conditions, these ties perform under intense UV and cold weather conditions. Add them to the tool box, the workshop, and the “junk-drawer” for everyday maintenance projects.

Wrap, lock and bundle or support everything from snow fencing, signage, volleyball nets, bike baskets, and critter fencing for your vegetable garden.

Fabricate & Repair:

- On the Job Site
- In the Workshop
- On the Boat
- In the Yard
- On the Trailer
- Around the House

WARNING: This product contains a chemical known to the State of California
to cause cancer and birth defects or other reproductive harm.

Benefits:

- **Save time:** Cable ties are quick application bundling devices. Wrap and lock in seconds to secure your project.
- **Reduce Hassle:** Formulated for harsh conditions, Xtreme Ties, can withstand most that Mother Nature might provide. Have confidence your project will be bundled throughout the year.
- **Save Money:** Replacing snapped cable ties is costly in time and effort. Xtreme Ties are designed to do the job and keep your project together.

Features:

- Engineered from improved Nylon 66 - ISO certified to maintain its properties to -40°F/C
- Enhanced UV protection
- UL Listed for indoor and outdoor applications from -4°F - 185°F (-20°C - 85°C). UL Type 21.
- 50# tensile strength
