The Black Widow series is Q.E.P.'s premier blade for very fast, chip-and wobble-free cutting of porcelain, marble, granite and ceramic tile. The unique diamond-shaped laser cutouts around the perimeter keep the blade cooler for superior performance and a longer life. In fact, independent testing has shown that the total average cut speed for the Black Widow blade is 17.14 seconds; faster than other porcelain cutting blades on the market today.

Available in 4", 7", 8" and 10" blade sizes.

Black Widow...the blade that bites back.

* Based on tests using a 10" blade on 12" x 12" porcelain tile and 12" x 12" marble tile.
