

# SAFE & EFFECTIVE.

Products that are safe for People, Pets, and Wildlife.

MouseX Ready Trays™ Available in: 2 pack, 4 pack & 8 pack

RatX Ready Trays™ Available in: 2 pack, 4 pack & 8 pack

## RatX & MouseX Ready Trays™

are a new approach to effectively kill unwanted rats & mice from industrial buildings, livestock premises, homes, barnyards and any area where the unwanted pests inhabit. Using Non-Toxic ingredients, RatX & MouseX Ready Trays™ are SAFE even if accidentally ingested by pets or wildlife. RatX & MouseX Ready Trays™ are also SAFE for Birds of Prey with NO RISK of Secondary Kill. RatX & MouseX Ready Trays™ are premeasured bait trays that make baiting easy, just peel off the bait tray cover and set the RatX & MouseX Ready Trays™ out where you see Rat or Mouse activity.

- ✓ **Indoor & Outdoor Use**
- ✓ **Completely Non-Toxic**
- ✓ **100% Naturally Derived**

## WHY RATX®/MOUSEX® WORKS

The specific mode of action and its inherent safety to non-rodents is based on a range of characteristics unique to rodents:

- *Rats & mice are opportunistic feeders and can consume up to 10% of their body weight.*
- *Rats & mice cannot vomit or regurgitate.*
- *Rats & mice have a unique digestive system in which the caecum (sack between large and small intestine) plays an active role.*

## HOW RATX®/MOUSEX® WORKS

It is consumed as a food source as part of a rat's & mice natural eating habit. After ingestion, dehydration commences causing blood thickening & circulatory collapse, whereby rats & mice become lethargic, retreat to their burrow, lapse into a coma and die.
