

## Amdro Quick Kill Outdoor Insect Killer

### Concentrate

Safety Data Sheet

Date of issue: 05/04/2017 Revision date: 08/02/2016 Supersedes: 07/16/2015 Version: 1.1 **SECTION 1: Identification** Identification 1.1. Product form : Mixtures Trade name : Amdro Quick Kill Outdoor Insect Killer Concentrate 100522992; 8-13576-00687-7; EPA Reg. No.: 279-3347-90098 Synonyms Recommended use and restrictions on use 1.2. Recommended use : Insecticide. Restrictions on use Avoid contact with eves, skin or clothing. Keep out of reach of children. Avoid release to the environment, Avoid inhalation of vapors or fumes. 1.3. **Supplier** Central Garden & Pet Company, Garden Division 1000 Parkwood Circle, Suite 700 Atlanta, GA 30339 - United States www.amdro.com 1.4. **Emergency telephone number** Emergency number 1-800-265-0761 1-800-424-9300 - CHEMTREC 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted SECTION 2: Hazard(s) identification 2.1. **Classification of the substance or mixture GHS-US classification** Serious eye damage/eye irritation Category 2A Causes serious eye irritation GHS Label elements, including precautionary statements 2.2. **GHS-US** labeling Hazard pictograms (GHS-US) GHS07 Signal word (GHS-US) : Warning Hazard statements (GHS-US) Causes serious eye irritation Precautionary statements (GHS-US) Wash hands, forearms and face thoroughly after handling Wear protective gloves/protective clothing/eye protection/face protection If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing If eye irritation persists: Get medical advice/attention 2.3. Other hazards which do not result in classification Other hazards not contributing to the : This pesticide is extremely toxic to fish, aquatic invertebrates including oysters and shrimp. Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this classification product is considered hazardous. 2.4. Unknown acute toxicity (GHS US) Not applicable SECTION 3: Composition/Information on ingredients 3.1. **Substances** Not applicable 3.2. **Mixtures** 

# Amdro Quick Kill Outdoor Insect Killer Concentrate Safety Data Sheet

| Name              | Product identifier   | %       |
|-------------------|----------------------|---------|
| Zeta-cypermethrin | (CAS-No.) 52315-07-8 | 0.35    |
| Surfactant        | (CAS-No.) 78330-21-9 | 1.2     |
| Other ingredients | (CAS-No.) N/A        | Balance |

| <b>SECTION 4: First-aid measures</b>   | S   |
|--|---|
| 4.1. Description of first aid measured   | ures  |
| First-aid measures after inhalation  | : IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
| First-aid measures after skin contact  | : IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.  |
| First-aid measures after eye contact   | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present<br>and easy to do. Continue rinsing. If eye irritation persists: Get medical advice and attention.   |
| First-aid measures after ingestion   | : IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth.<br>Do NOT induce vomiting unless directed to do so by medical personnel.  |
| 4.2. Most important symptoms an  | nd effects (acute and delayed)  |
| Symptoms/effects after eye contact   | : Irritation to eyes.   |
| 4.3. Immediate medical attention   | and special treatment, if necessary   |
| This product is a pyrethroid. If large amor<br>supportively.   | unts have been ingested, the stomach and intestines should be evacuated. Treat symptomatically and  |
| <b>SECTION 5: Fire-fighting meas</b>   | sures   |
| 5.1. Suitable (and unsuitable) ext   | inguishing media  |
| Suitable extinguishing media   | : Water spray. Dry powder. Foam. Carbon dioxide.  |
| Unsuitable extinguishing media   | : Avoid heavy hose streams.   |
| 5.2. Specific hazards arising from   | n the chemical  |
| Reactivity   | : The product is non-reactive under normal conditions of use, storage and transport.  |
|  |   |
|  | t and precautions for fire-fighters   |
| Firefighting instructions  | : Do not allow fire fighting water to escape into waterways or sewers.  |
| Protection during firefighting   | <ul> <li>Do not attempt to take action without suitable protective equipment. Self-contained breathing<br/>apparatus. Complete protective clothing.</li> </ul>  |
|  |   |

Always wash hands after handling the product.         including any incompatibilities         : Store in a well-ventilated place. Keep cool. Keep from freezing. Keep only in original container. |

Safety Data Sheet

| SECTION 8: Exposure controls        | personal protection  |
|-------------------------------------|--|
| 8.1. Control parameters             |  |
| No additional information available |  |
| 8.2. Appropriate engineering cont   | rols   |
| Appropriate engineering controls    | <ul> <li>Adequate ventilation systems as needed to control concentrations of airborne contaminants<br/>below applicable threshold limit values.</li> </ul> |
| Environmental exposure controls     | : Avoid release to the environment.  |
| 8.3. Individual protection measure  | es/Personal protective equipment   |
| Hand protection:                    |  |
| Protective gloves                   |  |
|                                     |  |

Eye protection:

Chemical goggles or face shield.

#### Skin and body protection:

Wear suitable protective clothing

#### **Respiratory protection:**

In case of inadequate ventilation, avoid breathing vapors or mist, wear a NIOSH approved chemical cartridge respirator with organic vapor cartridges and a pesticide prefilter.

#### SECTION 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties Physical state : Liquid : White emulsion. Appearance Color : White Odor : Latex like : No data available Odor threshold pН : 2-5 Melting point : Not applicable Freezing point : 32 °F (0 °C) : 212 °F Boiling point : > 200 °F (> 93.3 °C) Flash point Relative evaporation rate (butyl acetate=1) : No data available Flammability (solid, gas) : Not applicable. Vapor pressure : No data available Relative vapor density at 20 °C : No data available Relative density : 1 : Soluble. Solubility Log Pow : No data available Auto-ignition temperature : No data available Decomposition temperature : No data available : No data available Viscosity, kinematic : non-viscous Viscosity, dynamic 05/04/2017 EN (English US)

| hronic : Repeated and prolonged exposure via inhalation may be harmful.   |   |  |  |
| Skin<br>Acute : May cause skin irrit  | ritation, Skin contact (vapor or powder) may be followed by transient tingling or numbness, usually |  |  |

: May cause skin irritation, Skin contact (vapor or powder) may be followed by transient tingling or numbness, usually of the face,but this subsides without treatment.

: Causes serious eye irritation.

Ingestion

**Eye** Acute

Safety Data Sheet

Acute

: Large doses of zeta-cypermethrin, ingested by laboratory animals, may produce signs of toxicity including tremors, incoordination, convulsions, staggered gait, and oral discharge. Experience to date indicates that contact with zetacypermethrin may produce skin sensations such as numbing, burning or tingling. These sensations are reversible and usually subside within 12 hours.

| Zeta-cypermethrin (52315-07-8)    |   |
|-----------------------------------|---|
| LC50 Acute fish 1                 | 0.00039 mg/l (Exposure time: 96h - Rainbow trout)                                 |
| LC50 Acute fish 2                 | 0.00095 (Exposure time: 96h - Sheepshead minnow)                                  |
| LC50 Acute crustacea 1            | 0.00000475 mg/l (Exposure time: 96h - Mysid shrimp)                               |
| LC50 Acute crustacea 2            | 0.0000036 mg/l (Exposure time: 48h - Hyalella Azteca)                             |
| NOEC Chronic fish 1               | 0.00014 mg/l (Fathead minnow)   |
| NOEC Chronic crustacea 1          | 0.00000781 mg/l (Mysid shrimp)  |
| 2.2. Persistence and degradabilit |   |
| Zeta-cypermethrin (52315-07-8)    |   |
| Persistence and degradability     | Zeta-cypermethrin: Non-persistent. Readily hydrolyzed. Not readily biodegradable. |

| 12.3.   | Bioaccumulative potential |  |
|---------|---------------------------|--|
| Zeta-cy | ypermethrin (52315-07-8)  |  |
| Bioaccu | umulative potential       | Zeta-cypermethrin: The substance does not have a potential for bioconcentration. |
|         |                           |  |

| 12.4.  | Mobility in soil          |  |  |
|--|---------------------------|--|--|
| Zeta-o   | cypermethrin (52315-07-8) |  |  |
| Mobility in soil Zeta-cypermethrin: Immobile; Not expected to reach groundwater. |                           |  |  |
|  |                           |  |  |
| 12.5.  | Other adverse effects     |  |  |
| Zeta-cypermethrin (52315-07-8)   |                           |  |  |

This pesticide is extremely toxic to fish, aquatic invertebrates including oysters and shrimp. **Ecological Fate** 

| SECT  | ION 13: Disposal considerations |  |
|-------|---------------------------------|--|
| 13.1. | Disposal methods                |  |

Product/Packaging disposal recommendations

: Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

### Safety Data Sheet

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

| FIFRA Signal Word           | Caution  |
|-----------------------------|--|
| FIFRA Hazard Statement      | KEEP OUT OF REACH OF CHILDREN.   |
| FIFRA First Aid             | If swallowed • Call poison control center or doctor immediately for treatment advice.• Have<br>person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by<br>the poison control center or doctor.• Do not give anything by mouth to an unconscious person.<br>If in eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove<br>contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison<br>control center or doctor for treatment advice.<br>Note to Physician: Skin contact (vapor or powder) may be followed by transient tingling or<br>numbness, usually of the face,but this subsides without treatment. This product is a<br>pyrethroid. If large amounts have been ingested,the stomach and intestines should be<br>evacuated. Treatment is symptomatic and supportive. |
| FIFRA Environmental Hazards | This pesticide is extremely toxic to fish, aquatic invertebrates, oysters and shrimp. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. Care should be used when spraying to avoid fish and reptile pets in/around ornamental ponds. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are foraging the treatment area.                                |

### 15.2. US State regulations

### No additional information available

| SECTION 16: Other information |                  |
