
CARE AND USE MANUAL

- Use a soft, clean cloth that will not scratch during dusting
- Liquid spill or water marks should be gently wiped up immediately
- Never use water to clean the surfaces
- If using a polish, make sure it is an emulsion type such as Pledge Revitalizing Oil. Petroleum solvent based polishes are not recommended. Always test polish on a hidden area first.
- As a convenience, your order comes with a touch up care package
 - Small scratches can be covered with the color matched touch up pen
 - Deep scratches are filled with the color matched fill stick. Apply firmly to fill scratch and remove excess with a thin plastic card.
 - After scratch is filled and material dries, buff with a soft lint free cotton cloth
- Wipe pulls and hinges with a damp cloth and mild detergent. Immediately wipe dry with a lint free cotton cloth.
- When changing location, always unload units prior to moving them
