

BUTTERFLY TABLE INSTRUCTION

Preferred tools required are a 1/2" closed end wrench and 1/2" ratchet for leaf and tabletop.

Step 1: Start by bolting leaf to worm and trunk (do not fully tighten until all fasteners are in place on entire table).

Step 2: Place tabletop in position and start fasteners (do not fully tighten until all fasteners are in place on entire table).

Step 3: Snug nuts and bolts gradually by moving from fastener location on leaf and tabletop with ratchet and closed end wrench.

Step 4: Once the fasteners are consistently tightened then your Butterfly Table is ready to be used as a table.
