

# Use and Care Manual

## Macho Fern

Nephrolepis Biserrata

### Light

Indoors: Medium light  
Outdoors: Shade

### Fertilizer

Fertilize in Spring and Summer

### Water

Moist, well-drained soil

### Special Features

Colorful Foliage  
Purifies the air

## Plant Features

This big and brawny fern sports bright green fronds with bold, broad leaves and makes its relatives, Boston fern and Kimberly Queen Fern, look little by comparison. Macho ferns are ideal for large planters or urns where it has room to show off its graceful long fronds.
