Fry Pans
& Roasters

Meet the Family

Grill Pans

When you are looking for that chargrilled smoky taste. Use for grilling all types of meat, fish and vegetables. Helper handles help to disperse weight. Vegetables, particularly peppers, courgettes and aubergines taste wonderful. This product is safe for dry cooking which makes it excellent for low fat cooking. The rectangular pan lends itself to chargrilling larger items such as courgettes or up to 4 good-sized steaks.

Fry Pans

This surface is ideal for searing meat. Searing helps retain moisture and locks in flavour. Suited to High Temperature Surface Cooking – so long as the temperature is reached gradually. For pancakes, french toast, bread & pizza, try out our 30cm griddle which is as comfortable in the oven as it is on the hob.

Roasters

Excellent heat retention properties allows the food to heat through evenly and remain hot when served straight to the table.

The roasters are great for all types of meat, vegetable and fish dishes. Great too for lasagnes, moussakas, crumbles and pies. Don't forget to transfer straight to the hob to finish off the gravy using all those lovely roasted meat flavours. The low slung sides of the La Cuisine Shallow roaster gives you the perfect roast potatoes every time!
