# Tamarack Technologies Wi-Fi Ventilation Solutions

## Cools **The Indoor Air** of your **WHOLE HOUSE!**

### SPECIFICATIONS

<b>Electrical:</b>	
Voltage	115 VAC 60Hz
Power	High Speed 230 WATTS Low Speed 207 WATTS
Air Flow	High Speed 1600 CFM* Low Speed 1150 CFM*
Operation	30 Second Door Delay Before Fans Start
Insulation Value of Closed Doors	R38 or R50
Weights	Fan: 26 Lbs.
Rough Opening	14 1/2" x 22 1/2"
Interior Grille	Outside Dimensions: 15 3/4" x 25 3/4" Color: White
Attic Ventilation Requirements	5 square feet.

Installation instructions include an optional hard wire configuration for fan operation: *Recommended controls are an SPST wall switch, or a non-digital spring wound mechanical timer. All other controls will void the product warranty.*

\*CFM rates measured in a controlled test environment. Actual results will vary due to building construction.

**HV1600**  
Mechanically Sealed Doors  
Insulated up to R50

### HV1600 Wi-Fi Whole House Fan

The app is designed to allow the hub to tether to your unique Wi-Fi system. It's a simple plug and play as well. Simply install the fan and plug the power into a nearby socket.
