

Van Zyverden's
BEE BALM AQUARIUS

Monarda, also known as Bee Balm, have fascinating scented masses of large flowers. It is a vigorous clump forming herbaceous perennial sure to return for years to come if planted zone appropriate. Thrives just about anywhere. The blossoms are difficult to describe but very decorative. The leaves are mint scented and are edible. Known to attract scores of butterflies and hummingbirds. Great for a wet garden!

*Support the bumble bee population
by planting a pollinator*

Native hybridized wildflower

*Nectar-rich blossoms
that attract hummingbirds*

About This Variety: The color purple turns flowers into garden gems. It is a combination of red and blue. It adds refinement, and elegance to the garden. Look towards the color wheel to help pick companion colors. The color purple is also known to attract pollinators galore.
