VentSure® Sky Runner LTE™ Rolled Ridge Vent

A roof is made up of many components, all working together to provide strength and long-lasting protection. But in order for these components to protect against the weather outside, you have to ensure proper conditions inside the attic.

Optimized intake and exhaust ventilation allows air to flow through the attic—resulting in improved home energy efficiency and performance of the shingles. Without proper ventilation, excessive heat and moisture can buildup, which can lead to ice damming, higher energy costs and roof deterioration.

Sky Runner LTE™ roll vent has an external baffle that promotes better air flow out of the attic. Pair it with the VentSure® InFlow® vent to create a balanced ventilation system. The result is excellent roof deck protection and a longer life expectancy of your roof.

Sky Runner LTE™ – 30 foot roll vent is **Long, Tough and Easy to Install**, making it an excellent choice for your next roofing job.

- Easy to handle 30' Roll
- Includes 2 coils of 1 3/4" Nails
- Build in end plugs every 12"
- Staggered, flat external baffle
 - Promotes excellent air flow
 - Provides weather protection
 - Staggered design for easy roll out
 - Flat design reduces debris
- Internal baffle design
 - Provides strength and support
 - Keeps uniformed shape when installed
 - Helps promote air flow

Sky Runner LTE™ carries a Limited Lifetime Warranty^{††} when installed with other Owens Corning® roofing products as part of the Total Protection Roofing System®. ^

PRODUCT ATTRIBUTES

NFVA	36 sq. in per roll 12 sq. in per foot
Nominal length	30'
Nominal width	14.5"
Nominal height	5/8"
Nominal weight	14 lbs
Roof Pitch	2:12 to 16:12

APPLICABLE STANDARDS AND CODES

ASTM E108/UL 790 (Class C Fire Resistance)
FBC- TAS100(A) Wind-Driven Rain up to 100MPH
Florida Product Approval
ICC-ES AC 132
UL ER1292-01

TOTAL PROTECTION SIMPLIFIED

It takes more than just shingles to protect your

home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning® Total Protection Roofing System® ^ gives you the assurance that all of your Owens Corning® roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.
