

FLAME GENIE™ INFERNO

WOOD PELLET FIRE PIT | FOYER À GRANULES DE BOIS | BRASERO DE GRÁNULOS DE MADERA

For safe and enjoyable operation, please follow these warnings:

ALWAYS...

- Use Flame Genie/Inferno on level, non-combustible surface like concrete, rock, or stone.
- Use quality hardwood pellets for best performance.

NEVER...

- Use inside a building, garage, or other enclosed area.
- Use on a wooden deck.
- Use indoors, toxic carbon monoxide can cause death.
- Leave fire pit unattended.
- Use in windy conditions.
- Burn under decks, canopies, covered porches, pergolas, or other unvented areas.

DO NOT...

- Allow children to operate the fire pit.
- Use gasoline, kerosene, diesel fuel, alcohol, or any other volatile substance to light this fire pit.
- Operate unless you use the same precautions you would use with any open fire.
- Use in a boat or other recreational vehicle.
- Use near automobiles, trucks, vans.
- Operate while under the influence of or while consuming alcohol and/or prescription/non-prescription drugs.
- Burn charcoal, manufactured logs, driftwood, trash, leaves, paper, cardboard, plywood or any other materials other than wood pellets.

DON'T...

- Wear loose clothing while operating this fire pit.
- Alter this product in any way.
- Operate unless you adhere to state and local codes.
- Store near any fuel source such as gasoline, kerosene, gas lines (LP or Natural), or LP cylinders.
- Use in any environment with fumes or explosive gases.
- Attempt to move or store this fire pit until fire is completely extinguished and the unit reaches ambient temperature.

All surfaces are hot when in use. To avoid injury, do not touch this fire pit until completely cooled.

Note: The Flame Genie/Inferno is not intended to be used as a cooking appliance and doing so may limit the life-span of the product. Non-food grade pellets may be a health risk if used for cooking purposes.
