CEDAR RAISED GARDEN BED WITH CORRAL | ASSEMBLY INSTRUCTIONS

Questions? Email info@greenesfence.com or call 800-622-5510 Monday - Friday 8am-5pm EST

PACKAGE CONTENTS + (4) Screws

1. BUILD A WALL

Hold a Board on the ground so it's standing on edge with the notched ends to the left and right. Slide a Corner Post down over one notched end of the Board. Next, slide another Post over the other notched end. This forms a wall.
Repeat step one to complete a second wall.

2. BUILD A FRAME

Place the walls parallel to each other and connect them into a square with two more Boards. This forms the frame of the Garden Bed.

3. FINISH GARDEN BED WALLS

Add one more Board, one at a time, directly on top of each existing Board in the frame. Push the Boards down evenly between the tops of the Posts. If needed, tap snugly into place with a rubber mallet.

4. BUILD THE CORRAL

Slide one Spacer into the top of each Corner Post on top of each existing wall. Push the spacers down so they are directly on top of the Boards. Next add one Slat on top of the Spacers. Add more Spacers and Slats until all four Corral walls are complete.

5. ATTACH DECORATIVE CAPS

When the Corral is completed, attach each Decorative Cap to a Corner Post with a screwdriver and Screw. We recommend drilling a pilot hole in each Cap first.

Create an ideal growing environment for your plants with Miracle-Gro raised bed soil and Miracle-Gro plant food.
