Toolkit

YOU MAY NEED

- post
- tent-style stakes
- sod staples
- staple gun
- zip ties
- scissors
- hammer

INSTRUCTIONS

(1) Unroll needed amount of your Tenax fence along side area requiring protection. (2) Cut your Tenax fence into desired lengths with scissors. (3) Attach to wooden surfaces by hammering a staple every 2-3 inches around all surfaces until your Tenax fence is completely secure. (4) For fence applications use a support post no more than every 4 feet along your Tenax fence line. (5) Supporting posts should be driven 18-24 inches into the ground. (6) Secure your Tenax fencing to posts with self-locking ties every 6 inches on each post. (7) Secure the bottom of the Tenax fence every 2 feet with a sod staple or tent-style stake.
