

- 🇬🇧 **H20-SIX™ GEAR DRIVE SPRINKLER**
- 🇫🇷 **ARROSEUR À SIX VITESSES H20**
- 🇪🇸 **ASPERSOR H20 CON MECANISMO DE SEIS ENGRANAJES**
- 🇮🇹 **IRRIGATORE H20, COMANDO A SEI INGRANAGGI**
- 🇩🇪 **H20-SPRINKLER MIT SECHSRADANTRIEB**

- 1** Remove base attachment from H20-Six™ Gear Drive Sprinkler.
- 2** Hold one end of the Teflon Tape against the threads of the sprinkler base with your thumb.
- 3** Apply the Teflon Tape in the direction indicated on the above illustration, *tightly* covering all of the threads.
- 4** Tape will self-secure to the sprinkler threads.
- 5** Screw the sprinkler head into the base attachment while holding the base attachment stationary.

- 1** Retirer l'attache de base de l'arroseur à six vitesses H20
- 2** Maintenir à l'aide du pouce une extrémité de la bande adhésive Teflon sur l'un des filetages de la base de l'arroseur.
- 3** Appliquez la bande adhésive dans la direction indiquée sur l'illustration ci-dessus, en recouvrant soigneusement tous les filetages.
- 4** La bande adhésive s'applique d'elle-même aux filetages de l'arroseur.
- 5** Visser la tête de l'arroseur sur l'attache de la base, tout en le maintenant bien immobile.

- 1** Retire el acoplamiento de la base del Aspersor H2O con mecanismo de seis engranajes
- 2** Con su pulgar, sostenga un extremo de la cinta de Teflon contra la rosca de la base del aspersor.
- 3** Aplique la cinta de Teflon en la dirección indicada en la ilustración de arriba, cubriendo firmemente todos los filetes de la rosca.

- 4** La cinta se asegurará sola a las roscas del aspersor.
- 5** Atornille la cabeza del aspersor al acople estacionaria el acople de la base.

- 1** Rimuovere l'attacco di base dall'irrigatore H2O, comando a sei ingranaggi.
- 2** Tenere con il pollice un capo del nastro di Teflon contro le filettature della base dell'irrigatore.
- 3** Applicare il nastro di Teflon nella direzione indicata nell'illustrazione qui sopra, coprendo strettamente tutte le filettature.

- 4** Il nastro aderirà da solo alle filettature dell'irrigatore.
- 5** Avvitare la testa dell'irrigatore all'attacco della base, tenendo fermo quest'ultimo.

- 1** Entfernen Sie die Basisbefestigung vom H2O-Sprinkler mit Sechsradantrieb
- 2** Drücken Sie mit Ihrem Daumen ein Ende des Teflonbands gegen die Gewinde der Sprinkler-Basis.
- 3** Bringen Sie das Teflonband gemäß der oben abgebildeten Darstellung in der richtigen Richtung an, bis alle Gewinde vollständig bedeckt sind.

- 4** Das Band wird an den Gewinden des Sprinklers automatisch sicher befestigt.
- 5** Schrauben Sie den Sprinkler-Kopf in die Basisbefestigung und achten Sie darauf, dass die Basisbefestigung nicht verschoben wird.
