

Maintenance Kits

GENERAC® PROTECTOR DIESEL GENERATOR ACCESSORIES

Model 006571-0 - 15 & 20 kW

Model 006572-0 - 30 kW
Model 006570-0 - 50 kW

DESCRIPTION

Scheduled maintenance is a necessity for all standby generators. The Protector™ maintenance kits contain fuel, air and oil filters, and a funnel and chamois. Oil will need to be purchased separately based upon the recommendations listed. Maintenance for the fuel and oil filters is recommended at every 250 hours or 2 years and at 100 hours or 1 year for the air filter. If running in a dusty environment, more frequent maintenance may be required. Maintenance intervals may differ per model. Refer to the generator owner's manual for more information.
