

How to Paint Chevron on a Potting Bench

"It's graphic and bold and makes the porch jealous."

TOOLS

- potting bench
- white paint
- black paint
- brush
- ScotchBlue™ Painter's tape

Step By Step Guide:

- Step 1** Start with a potting bench and paint it white.
- Step 2** Start taping a chevron pattern; I used ScotchBlue™ Painter's tape to tape off the lines. I angled the tape in one direction, and then angled it back the other way to create the pattern.
- Step 3** Start painting. I just painted the top with black paint.
