**LEAD FREE\***

**Series LFTWH**  
**Tankless Water Heater Valves**

Sizes: 3/4" (20mm) & 1" (25mm)

Series LFTWH tankless water heater valves are designed to simplify the installation, maintenance and operation of tankless water heaters. The LFTWH features Lead Free\* construction to comply with Lead Free\* installation requirements.

**Features**

- Lead Free\* copper silicon alloy body
- FPT unions for connection to water heater (all models)
- FPT unions for connection to water lines (UT models)
- Quick-Connect end connections to water lines (QT models)
- FPT connection to water lines (FT models)
- Sweat connection to water lines (FS models)
- FPT/sweat unions for connection to water lines (UTS models)
- Full-port, quarter-turn ball valve with color-coded tee handle and union
- Quarter-turn purge and drain valve with hose connection and tethered brass cap
- Optional 3/4" pressure relief valve 150psi (10.3 bar)
- Optional integral spring check valve in cold water valves
- Hot and cold valves certified to NSF/ANSI 61
- Staggered connection points for ease of installation and access
- Valves are suitable for most tankless installations
- No additional adapters required
- 600 WOG rated

\*The wetted surface of this product contacted by consumable water contains less than 0.25% of lead by weight.

**Specifications**

A tankless water heater valve shall be installed where indicated on the plans. The valve shall facilitate isolation of the water heater from the water lines, water heater purging, draining and a provision for a pressure relief valve. The Lead Free\* Tankless Water Heater Valves shall comply with state codes and standards, where applicable, requiring reduced lead content. The valve shall be a Watts Series LFTWH.

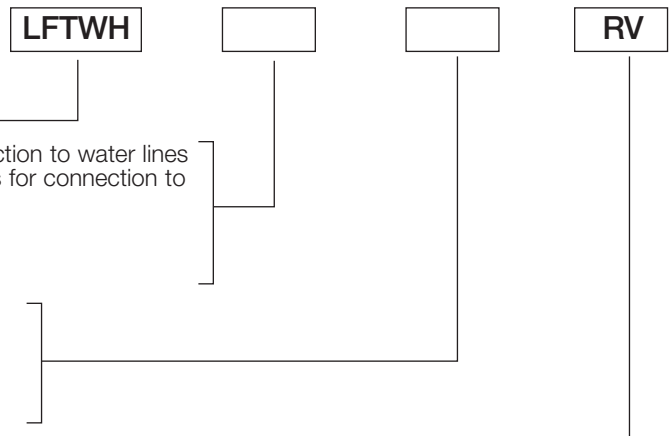

**Materials**

- Body: Lead Free\* copper silicon alloy body
- Ball: Lead Free\* brass
- Seats: Virgin PTFE
