### HEPA Air Cleaner with Ionizer Model AC-3000i

 SUNPENTOWN INTERNATIONAL INC.

## INTRODUCTION

---

Congratulations on your choice of the MAGIC CLEAN HEPA Air Cleaner with Ionizer. We highly recommend that you operate the Air Cleaner 24 hours a day, because indoor air can be quickly contaminated by activity or objects in a room and infiltration of outside air. Air cleaners are much more effective in rooms where all doors and windows are closed.

## STRUCTURE

---

## SETUP

---

Your Air Cleaner was thoroughly inspected and tested at the factory prior to packaging. Visually inspect it upon removal from its packaging. Return the unit if it shows any signs of damage or mishandling.

**WARNING:** To avoid fire or shock hazard, the Air Cleaner should ONLY be plugged into a polarized 120 Volt AC outlet.

## IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions before using this product. Save these instructions for easy reference. When using electrical appliances, basic precautions should always be followed to reduce breakage, risk of fire, electric shock and injury to persons including the following:

- I Do not use air cleaner outdoors.
- I Do not use air cleaner too close to the wall, to avoid the wall getting dirty.
- I Never operate air cleaner without the filter properly installed. Permanent motor damage could result.
- I Never use air cleaner unless it is fully assembled.
- I Do not use air cleaner where combustible gases or vapors are present.
- I Do not allow foreign objects to enter ventilation or exhaust opening as this may cause electric shock or damage to the air cleaner. Do not block air outlets or intakes.
- I The air cleaner has a polarized plug (one blade is wider than the other). To reduce risk of shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. **DO NOT** attempt to defeat this safety feature.
- I The Air Cleaner should **ONLY** be plugged into a 120 Volt AC outlet.
- I A loose fit between the plug and the AC outlet (receptacle) may cause overheating and a distortion of the plug. Contact a qualified electrician to replace loose or worn receptacles.
- I Unplug from wall outlet before servicing.

## OPERATION

---

Room air is drawn into the Air Cleaner through the Front Grill and passes through the filter. The filtered air is released from the top of the unit and is dispersed into the room. The air cleaner has two operating speed with a slider switch. Besides, the Ionizer function can obviously increase the efficiency in attracting dusts, and restrain the propagating of the bacteria.

## FILTER REPLACEMENT

---

The filter is specially designed for easy replacement to ensure maximum performance. **THE FILTER shall be replaced every 6 (six) months depending on usage (The replacement filter item number is AC-3000F).** The efficiency and air volume output will begin to decrease dramatically when the filter needs to be changed.

The steps of replacing the filter are as below:

1. Turn the Air Cleaner OFF and unplug the unit from the power outlet.
2. Carefully lay unit down on a flat surface with the Front Grill facing up.
3. Using finger pressure in the two notches located on top of the front grill, pull front grill out and away.
4. Remove and discard the old filter.
5. Remove any protective plastic wrapping and packaging from the new filter.
6. Set new filter into the air cleaner.
7. Install the Front Grill by placing the top edge of the grill near the top of the air cleaner, lining up the grill tabs with the air cleaner slots.
8. Snap Front Grill into place by pushing down carefully near the bottom edges of the Front Grill.
9. The Air Cleaner is now ready for operation.

## FILTER CHANGE CALENDAR

---

The Filter Change Calendar on the top panel can help you remember to change filter.

Set the month when replacing the filter

## CLEANING THE UNIT

1. Turn Air Cleaner OFF and unplug from power outlet.
2. Clean unit with a moistened soft cloth only. DO NOT pour or splash water on the unit or use any abrasive type cleaner on it. Clean all external surfaces, especially the air intake grilles and air outlet.
3. **DO NOT** attempt to clean the filter; it is **NOT washable** and washing will damage it.
4. Reposition Air Cleaner, plug into power outlet and turn ON.

## STORAGE

---

1. Remove filter from the unit.
2. Wrap the filter in an airtight plastic bag or plastic wrap. Be sure that the filter is totally sealed to protect it from its storage environment.

To restore the Air Cleaner to service:

1. Unwrap the filter.
2. Install filter in the air cleaner. See "Filter Replacement" section for proper installation.

## TECHNICAL SPECIFICATIONS
