

**RHMG650 9-IN-1 THERMO-HYGROMETER WITH PIN/PINLESS MOISTURE METER**

- ✓ Measures ambient temperature, relative humidity (RH), absolute humidity (in mg/L or g/m<sup>3</sup>), GPP (mixing ratio—in grains per pound or g/kg), relative moisture level using pinless sensor, absolute moisture level using included pin-type probe, dew point, atmospheric pressure and vapor pressure
- ✓ Stores/recalls 20 pairs of readings
- ✓ Settable high and low alarms for RH, relative moisture level and absolute moisture level
- ✓ Backlit LCD with 3-digit primary readout
- ✓ + 4-digit secondary readout
- ✓ Priced at \$249.00
- ✓ Available In-stock

Ideal for water damage restoration contractors, facility maintenance professionals and HVAC system installers/technicians

# Multi-Function Moisture/Temperature & Humidity Data Logger

Competitive advantages are:

1. Price
2. Most functions (9) offered
3. Measures Atmospheric Pressure

4. Measures Vapor Pressure
5. Measures Absolute Humidity in g/m3 in addition to GPP
