### 5. INSTRUCTIONS

#### Application

1. Clean floor thoroughly prior to application. Allow floor to dry completely. Gently shake bottle to mix before using.
2. Apply polish to a small section of the floor. Using a slightly damp microfiber pad or similar applicator pad, spread the polish until it is evenly worked into the flooring. Make sure to work with the grain when polishing wood. R8250 can also be high-speed buffed to a high gloss. Note: Use a clean pad to apply Roberts R8250, do not use the same pad that was used for cleaning the floor.
3. Continue working in small sections, repeating Step 2 until entire floor is polished.
4. Allow floor to dry a minimum of 1 hour before walking on the floor. If more gloss is desired, a second coat may be applied after 2 hours. Allow floor to dry for 24 hours before replacing furniture and rugs on floor and before allowing heavy foot traffic.
