

1 YEAR LIMITED WARRANTY

For one year from date of purchase, Malibu Lighting Corporation warrants the Malibu Low Voltage Lights against defects due to workmanship or materials to the original purchaser. The Malibu Lighting Corporation's obligations under this warranty are limited to the following guidelines:

- This warranty does not cover units that have been altered/modified or damaged due to: normal wear, rust, abuse, improper maintenance and/or improper use.
- This warranty does not cover surface scratches to fixtures or transformer, which is considered normal wear.
- Malibu Lighting Corporation may elect to repair or replace damaged units covered by the terms of this warranty.
- This warranty extends to the original purchaser only and is not transferable or assignable to subsequent purchasers.

Malibu Lighting Corporation requires reasonable proof of purchase. Therefore, we strongly recommend that you retain your sales receipt or invoice. To obtain repair or replacement of your Malibu Low Voltage Lights under the terms of this warranty, please call Customer Service Department at 888-295-7348 for a Return Authorization Number and further instructions. A receipt or proof of purchase will be required. Malibu Lighting Corporation will not be responsible for any units forwarded to us without a Return Authorization Number.

EXCEPT AS ABOVE STATED, THE MALIBU LIGHTING CORPORATION MAKES NO OTHER EXPRESS WARRANTY.

THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED IN DURATION TO ONE YEAR FROM THE DATE OF PURCHASE. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

ANY LIABILITY FOR INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM THE FAILURE OF THE MALIBU LOW VOLTAGE LIGHTS TO COMPLY WITH THIS WARRANTY OR ANY IMPLIED WARRANTY IS EXCLUDED. CUSTOMER ACKNOWLEDGES THAT THE PURCHASE PRICE CHARGED IS BASED UPON THE LIMITATIONS CONTAINED IN THE WARRANTY SET OUT ABOVE. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

USING THIS PRODUCT.

Instructions for Assembling and Installing Malibu® Light Fixture

⚠ WARNING: Risk of Fire or Electrical Shock

- For use with OUTDOOR low voltage landscape lighting systems ONLY.
- NOT FOR USE with submersible or pool/spa equipment.
- Do not install within 10 feet (3 m) of pools, spas, or fountains.
- Do not connect with wet hands.
- Do not submerge in water, the product can be damaged.
- Do not repair or modify this product.
- This product is not a toy and must not be operated by children.
- Low voltage cable can be buried to a maximum of 6 inches.
- Keep away from materials that may burn. Do not operate the luminaire fitting with a missing or damaged lens.
- If necessary to splice cable, carefully follow instructions that came with the connector you have purchased.
- The included cable connectors are to be used only on low voltage power cable with SPT-3W or equivalent 18, 16, 14, or 12AWG cable.
- The fixture's cable and connector shall:
 - Be protected by routing in close proximity to the light fixture, or next to a building structure such as a house or deck.
 - Not be buried except for a maximum 6 inches (15.2 cm) to connect to the main low voltage cable.
 - Have a length such that the connector is within six inches (15.2 cm) from the light fixture or a building structure.
- Do not use cable smaller than listed in chart below.

SELECT CABLE. Use the chart below to determine the MINIMUM gauge cable to be used, depending on the wattage of the power pack. Using larger cable will ensure maximum light output. For Malibu cable, contact your supplier.

Power Pack Wattage	Minimum Gauge Cable
217-300	12
157-216	14-12
121-156	16-14-12
0-120	18-16-14-12

BEFORE FIRST USE –

1. Turn fixture head on its side. Remove battery compartment cover and gasket with a phillips head screwdriver. Remove battery from packaging.
2. Install rechargeable 900mAh LiFePO4 battery. Make sure the battery is installed with the correct polarity. Light will automatically turn on when battery is installed.
3. Replace battery compartment lid and gasket.
4. Select either HIGH (H) or LOW (L) for your preferred level of illumination.
5. When replacing battery, recycle or dispose of used battery properly. Do not puncture, short circuit, or dispose of in fire.
6. For low voltage landscape lighting operation, place the light fixture on the ground stake assembly. The orientation of the fixture head on the ground stake does not matter. Light will automatically switch from battery mode to low voltage lighting mode and light up if the power pack is ON. Battery will recharge during normal nighttime landscape lighting operation. Battery will only discharge when the fixture is removed from the ground stake and the light comes ON.

⚠ WARNING: Risk of Fire or Electrical Shock

- Read power pack instruction sheet before attempting to install or hook up the power pack. Failure to follow directions may result in **Risk of Fire or Electric Shock**.
- Use only CSA or UL approved low-voltage cable. Failure to the correct gauge cable or install it as directed in these instructions may result in **Risk of Fire or Electric Shock**.

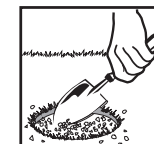

⚠ CAUTION:

- To avoid risk of eye injury, do not stare at bright light.

Assemble the fixture

- 1) Assemble fixture as shown in illustration. Be sure to run wire leads through slot in stake.

- 2) Lay the fixtures out where you want to locate them. The first fixture should be at least 10 wire feet from the power pack. **WARNING-RISK OF ELECTRICAL SHOCK: Do not place a fixture within 10 feet of a pool or spa.**
- 3) With cable connected to power pack (SEE POWER PACK INSTRUCTION SHEET) and power pack switched on, attach each fixture to power cable using cable connectors as shown. Separate the connector parts. Push cable all the way into the U-shaped slot. Thread the cap onto the U-shaped piece, turning clockwise to secure tightly. Prongs will pierce cable to make contact and illuminate fixture. **The fixtures will illuminate when the connection is complete.**
- 4) To install, loosen ground with a shovel or soften soil with water, then press stake into ground. **NOTE: Make certain that the ground stake is firmly planted deep into the soil to keep the light from falling over. Do not use hammer. Do not push head of fixture to install stake into ground as it may break fixture.**
