

CONTEMPORARY SDL DOOR

Builders
CHOICE[®]

- Flush-glazed doors provide a cleaner look with built-in glass, eliminating unsightly screw plugs
- This wide lite design allows for optimal natural light and the one-piece construction increases resistance to air and water infiltration
- Pre-finished color options available or paint yourself to match your home's existing aesthetics
- 4 Lite designs available using 5.5" SDL (simulated divided light) bars
- 3'0" X 6'8" door size
- Comes pre-assembled and pre-hung on a 6-9/16" or 4-9/16" primed jamb

Why Flush-Glazed?

Up to 16% wider daylight opening

Flush-Glazed Glass

Traditional Lip-Lite

16% Wider Daylight Opening

Let in more natural light with a wider daylight opening when compared to conventional lite frames.

Seamless, Clean Lines

Factory-built, seamless construction features clean lines.

- Eliminates the need for a lite frame and screw plugs.
- Creates a variety of looks from classic to contemporary.

Flush-Glazed Glass

Traditional Lip-Lite

Create a Seamless Entrance

Long-Term Performance

Glass built directly into the door during manufacturing offers long-term performance.

- 1 Polyurethane Foam Core** - Surrounds the glass, helping to provide durability and strength and eliminate potential pathways for air and water.
- 2 Dual Adhesive Weather Seal** - Provides high-performance protection inside and out to help prevent air and water infiltration.
- 3 Black Tape** - Helps prevent finish weep between the door and glass, eliminating the need to mask or scrape - simply finish and cut tape.
