DYNAGRIP®
THE GRIP THAT OUTPERFORMS™

HEAVY DUTY Max

HYBRID TECHNOLOGY

Faster Bond Strength & Exceptional Adhesion for the Toughest Applications.

FASTER BOND STRENGTH*
Greatly reduces clamping and bracing required to complete heavier jobs, faster

ALL MATERIALS+
Excellent adhesion to porous & non-porous materials

EASY TO GUN
Reduces user fatigue & prevents dripping of adhesive on finished surfaces

Exterior / Interior
CONSTRUCTION ADHESIVE
**HEAVY DUTY Max**

**UP TO 5X FASTER BOND STRENGTH** +

**FEATURES**

- Adheres to Wet Surfaces
- VOC Compliant
- Low Odor
- Easy to Gun

**PRODUCT DETAILS**

**RECOMMENDED USE**

Subfloor, deck, structural paneling & drywall, mirror, marble, granite, tub surround installation, landscape block and masonry.

**NOT RECOMMENDED FOR**

+House wrap such as Tyvek® and other fluoropolymer based substrates such as Teflon.

**ADHERES TO**
- Aluminum
- Brick
- Concrete
- Drywall
- Fiber Cement
- OSB
- Enhanced OSB
- Metal
- Wood
- Plywood
- PVC
- Marble
- Granite
- Stone
- Masonry
- Foamboard
- Most Common Building Materials

**APPLICATION TEMPERATURE**

20°F - 120°F

**SERVICE TEMPERATURE**

-40°F - 200°F

**TYPICAL PHYSICAL PROPERTIES**

- Solids: 99.5%
- Shelf Life: 12 months
- Skin Time: 20 minutes
- Cure Time: 24 hrs.-7 days

- 10 FL. OZ.
- 1/4" bead yields 32 linear ft.
- 3/8" bead yields 14 linear ft.
- 28 FL. OZ.
- 1/4" bead yields 86 linear ft.
- 3/8" bead yields 38 linear ft.

**SPECIFICATIONS**

- ASTM D3498
- ASTM C557
- Meets or Exceeds
- Meets or Exceeds
