

Warning

Let your heater cool before you put your cover on.

Installation: Check your heater to make sure there are no sharp objects or corners that could stress your cover as you pull it on.

Completely unzip your cover all the way from the top to the bottom and around the top. Using a stepladder, if needed, carefully slip your cover over the top of the heater and zip it closed around the top. Now zip your cover closed up from the heater base. Close the zipper together at the bottom of your cover. Then zip your cover up to the top of your heater.

Cleaning Clean your cover with a soft brush and lukewarm water. DO NOT USE SOAP as it may remove the protective coatings added by the factory. Air dry. One Year Warranty This cover is factory warranted for workmanship and materials for one year after purchase.
