FIELD AND BRUSH MOWER

- Available 16 hp and 18.67 hp Generac G Force Engine.
- Available 26 in and 30 in mowing deck for cutting extra tall and dense growth down with ease.
- 18 in Puncture resistant, lugged tires provide maximum traction on soft ground and side slopes.
- Power steering for better maneuverability.

POWERED
BY **GENERAC**
GFORCE

FEATURES

- **Generac G-Force Engine:** Powerful, easy starting engines make our field and brush mower the natural choice for any task, and are designed for long life.
- **Power Steering:** The disc brake system provides power steering. Each wheel is equipped with a hand brake, allowing for easy maneuverability.
- **Superior Mulching:** The mower deck processes grass and brush into a fine mulch, eliminating windrows typically produced by side-discharge mowers.
- **Gear-Driven Transmission:** Geared transmission locks in the ground speed, leaving your hands free to steer the machine across uneven terrain. Choose a fixed pace from three forward gears.
- **High-Performance Blade Spindle:** Integrated into the deck housing, the 1.375 in (34.9 mm) thick cast iron spindle with oversized double sealed bearings is designed for vibration-free performance to provide years of maintenance-free use.
- **Commercial Grade Electric Clutch:** The self-adjusting clutch is designed for easy access and quick attachment swapping. No cables to stretch, or idler pulleys to get out of adjustment.
- **Built to Take a Beating:** Framed in heavy-duty, powder coated, laser cut steel, and featuring reinforced key stress spots to provide reliable operation for years.
- **Adjustable Handlebars and Ergonomic Control:** A comfortable working height is important, especially when traversing rough terrain. Controls are integrated into the grips for operator comfort.
