

Product Description:

Limit the noisiness of footsteps with Silent Step Sound-Reducing Underlayment. Designed to lessen the effect of floor impacts, this cushiony subsurface layer can be installed over any flat, smooth, dry surface at any grade. Lay it down before your next residential laminate flooring project to keep reverberations to a minimum.

- Helps reduce impact sound, especially for overhead rooms
- Covers 200 sq. ft.; roll measures 61 ft. x 3.28 ft..
- Rolled for quick and easy installation
- Appropriate grade for installation: Above grade, On grade and Below grade
- Can be installed over smooth, flat, dry surfaces: concrete, ceramic tile, vinyl and wood
- Suitable for residential and light-commercial use
- No warranty
- All online orders for this item ship via parcel ground and may arrive in multiple boxes
