Assembly

1 Attaching the table legs

- Place the table frame (A) upside-down on a soft, flat, non-abrasive surface. Attach the table legs (B) to the table frame (A) using M6x15mm bolts (AA) and M6 washers (CC). Do not fully tighten the bolts.

2 Attaching the connector ring

- Attach the connector ring (C) to the table legs (B) using M6x25 mm bolts (BB) and M6 washers (CC). Fully tighten all the bolts with the hex wrench (EE). Ensure all bolts are aligned and assembled correctly.
- Attach the bolt caps (DD) on all bolts.

3 Positioning the table

- Turn the table right side up.

Care and Cleaning

- Do not allow water to build up on the table frame. This will cause corrosion and possible freezing damage in cold climates.
- Use a mild soap and water for normal cleaning. Do not use janitorial or alcohol based cleaners as the ingredients in some cleaners may cause discoloration or have an adverse reaction on your finish.
- Rinse with clean water and dry with a soft, absorbent cloth towel.
- Treat the frame with a liquid wax for maximum protection against UV rays and/or salty, damp air.
