

INSTALLATION INSTRUCTIONS

1. Drill through the fence post with 1/2" or 9/16" (preferred) drill bit
2. Insert the "Easy Gate Latch" through hole, tail-side first from inside of the gate through outside
3. Straight the Easy Latch. Using 5/8" x 4 screws (Provided), fasten the latch to the post
4. Use 5/8" x 2 screws (Provided) to fasten the outside plate
5. Close the gate and by holding "Center Bar" on top part of gate door, align it with Latch center. Once aligned, secure it by using 1/8" screws (Provided)
6. Install knob
