

STORAGE

WARNING: AVOID INJURY. Read and understand the entire *Safety* section before proceeding.

SHORT TERM

IMPORTANT: NEVER spray unit with high pressure water or store unit outdoors. Run with attachment clutch engaged a few minutes after each use to free unit of any loose or melting snow.

Close fuel shut-off valve.

Inspect unit for visible signs of wear, breakage or damage.

Keep all nuts, bolts and screws properly tightened and know unit is in safe working condition.

Store unit in a cool, dry protected area.

LONG TERM

Clean unit thoroughly with mild soap and low pressure water and lubricate (see *MAINTENANCE* on page 23). Touch up all scratched painted surfaces.

Remove weight from wheels by putting blocks under frame or axle.

FUEL SYSTEM

Gasoline left in the fuel system for extended periods without a stabilizer will deteriorate, resulting in gum deposits in the system. These deposits can damage the carburetor and the fuel hoses, filter and tank. Prevent deposits from forming in the fuel system during storage by adding a quality fuel stabilizer to the fuel. Follow the recommended mix ratio found on the fuel stabilizer container.

IMPORTANT: NEVER store the engine with fuel in the fuel tank inside of a building with potential sources of ignition.

Add Fuel Stabilizer

1. Turn the fuel valve off while engine is running and allow the engine to run until it stops. Turn engine OFF when it begins surging to avoid engine damage.
2. Add fuel stabilizer, following the manufacturer's instructions.
3. Turn fuel valve on after adding fuel stabilizer.
4. Re-start engine.
5. Run the engine outdoors for 5 minutes to be sure that treated gasoline has replaced the untreated gasoline in the carburetor.
6. Slow the engine to an idle speed.
7. Stop engine.

SERVICE PARTS

Order the following parts through your Dealer:

Part No.	Description
00036800	Ariens Hi-Temp Grease (Three 3-oz. Cartridges)
21534100	Spark Plug (920014)
21547400	Spark Plug (920013, 021, 022)
07200513	Impeller Belt
07200603	Traction Belt (920013, 014, 021)
07200114	Traction Belt (920022)
53200500	Shear Bolts
00170800	Friction Disc
00592900	Gas Stabilizer (4 oz.)
00432600	Headlight Bulb, 20 Watt
06400920	Gear Case Seal Washer

ACCESSORIES

See your authorized Ariens dealer to add the additional accessories available to your Sno-Thro model.

Part No.	Description
73203100	Slicer Bar Kit
72406500	Front Weight Kit (920014, 021, 022)
72600300	Composite Skid Shoe Kit
72601400	Sno-Thro Cover
82000200	28" Brush Attachment (920013, 014, 021)
72408000	Snow Cab
