HP Handle and HPK Key Lock

Ideal Security proudly presents the next generation of storm and screen door handles. Sophisticated and Innovative, the HP makes opening a door smoother and easier by using a horizontal or side pull action.

The stream-lined look provides a touch of modern elegance to any storm door.

- 1 3/4" standard hole spacing
- Uses a wide variety of inside latches and strike configurations
- Matching HPK key lock with interior deadbolt options
- Adaptable to Ideal's unique touch-bar exit system
- Available in satin chrome, brass e-coat, and painted finishes
- Available in latch set or full kit formats

FOR THE RETAIL MARKET:

The SKHP series

Includes the outside handle, inside wc-latch (with locking mechanism), and fasteners for doors from 1" to 2 1/8" thick. Available in brass e-coat, satin chrome, black and white with matching inside painted latches.

The SKHP will replace all surface mount push button, pull and lever handles using standard 1 3/4" hole spacing.
