

Take the pain out of gardening!

If you've been using regular scissors to trim, shape or prune then it's time for you to say goodbye to aching wrists, hands and blisters! Now you can accomplish the task effortlessly with this premium gardening scissor. Its' razor sharp titanium-coated blades curve to an ultra-fine point for even the most delicate pruning tasks.

Reduce strain while increasing your comfort.

A built-in safety lock keeps these super sharp blades securely closed until you're ready to open them. The gentle spring action lets you smoothly open and close the blades, snip after snip, reducing the strain on your hands and wrists. A rubberized grip adds to your overall comfort while using this lightweight, precision-honed gardening tool.

Lightweight, sharp and durable!

The lightweight design and precision point blades of our gardening scissors make them the ideal choice for maintaining indoor gardens of herbs, flowers or hydroponic plants. Durable and corrosion resistant, you can count on a sharp blade and consistent cutting for years to come.
